

Hellesdon Cluster

Extended Schools Team

What is Extended Schools?

There are 5 key areas that make up the Core Offer for Extended Schools

- Primary schools to provide access to high quality childcare in accordance with their communities' needs, combined with a varied menu of activities to enhance achievement and broaden interests.
- Secondary schools to provide access to a varied menu of study support and enrichment activities for young people as well as a safe place to be.
- Schools to provide access/signposting to parenting support, including information sessions for parents of pupils joining reception and on transfer to other school stages. Access to parenting groups and family learning sessions to allow children to learn with their parents where consultation has shown there is a demand.
- Swift and easy access: working closely with other statutory services and the voluntary and community sector to ensure that children with additional needs are identified as early as possible, and are well supported through integrated working with other services.
- Schools to provide community access to appropriate facilities, ICT and sports for example, where possible.

The Extended Schools team work with all 9 schools within the Hellesdon Cluster to help them to achieve the different elements of the Core Offer.

Funding is available to ensure that all children have an equal chance to take part in these activities– please speak to us for more details if you think you may be eligible for this.

The Extended Schools Team
